RAM BIKES MISSION

13 years after the first RAM bike was released, our team introduces our new line-up.

For the 2015 we are expanding our bike range mainly in the racing segments, and also by implementing the latest technical trends in mountain biking:

- Light weight carbon frames – proved on the racing scene, by the many podiums of Wouter Cleppe.
- Improving the well-known FOUR.X, designed with the help of the BMX and 4X legend Martin Ogden.
- Entirely new downhill frame project – successfully tested under severe conditions by our team riders.
 - 1x11 drivetrains.
 - Rear shocks modified to fit the leverage curve of every frame.
 - Tubeless wheels.

13 години след сглобяването на нашия първи велосипед, екипът ни има удоволствието да Ви представи новата ни продуктова линия.

За 2015-та новостите са предимно в състезателния сегмент, не сме пропуснали и най-новите технологични тенденции във вело-индустрията:

- Леки карбонови рамки – доказали се в състезанията с успехите на Уоутър Клепе.
- Подобрения по добре познатия FOUR.X, разработен с помощта на BMX и 4X легендата Мартин Огден.
- Нова рамка за спускане – успешно тествана в сурови условия от RAM Bikes Team.
 - 1x11 предавки.
 - Задни амортизатори, специално напаснати по характеристиките на рамките.
 - Безкамерни гуми.

DOWNHILL, FOUR CROSS & CROSS COUNTRY

RACING

RACE BIKES

DH / 4X / XC COMPETITION

A man once said that the first bike race happened right after the second bike was built. Cyclists mentality is so much dominated by the natural laws that we want to race from the first moment we feel the rush of cycling.

For all the race addicts our "Race" range provides weapons for every battle. Whether it comes to xc, marathon, 4x or downhill we provide the tools for every trade in mountain biking. At Ram Bikes we believe that field testing is one of the key points in building bikes, that's why our bikes are put to the most vigorous test, the one of handling the abuse of racers like Wouter Cleppe, Ivan Kolev, Martin Bochukov, Aleksander Iliev and Bobi Krumov.

Някой, някога беше казал, че първото вело състезание се е зародило веднага след сглобяването на втория велосипед. За всички пристрастени към надпреварата, нашият състезателен клас велосипеди Ви предлага инструмент за всяка цел. Независимо дали се отнася до крос кънтри, маратон, 4X или спускане ние предлагаме точният инструмент. Вярваме, че тестването на продуктите ни в реални условия е ключов параметър при разработването на велосипеди, затова излагаме колелата си на най-жестоките изпитания, именно тези на които ги подлагат нашите състезатели. Уутър Клепе, Иван Колев, Боби Крумов, Мартин Бочуков и Александър Илиев неуморно подлагат велосипедите на брутални тестове.

TRAIL RIDING

EPIC XC DAYS, ENDURO & ALL MOUNTAIN

TRAIL BIKES

FULL SUSPENSION ALL-MOUNTAIN PERFORMANCE

In this category there is a full suspension bike for every passionate mountain biker, from the most conservative ones to the experimentalists. Basically there's a bike for every trail and every rider. From effective short travel fast 29ers to long travel versatile 26ers, we have them all. Steep, technical climbs, rocks, roots, whatever the challenge you will remain satisfied from the bikes' exceeding capability. We've selected just the right rear shocks by Rock Shox, tuned to match the suspension systems of the frames, so you can get the most of our FS bikes.

***В** този клас предлагаме велосипеди със задно окачване подходящи за широк кръг отдадени на планиското колоездене хора. Фамилията на тези велосипеди, показва и тяхното предназначение - да покрият цялото разнообразие от терени в планината. Стръмни, технични изкачвания и спускания, камъни, корени, пред каквито и предизвикателства да изправите вашия RAM, ще останете безкрайно удовлетворени от неизчерпателната му способност да се справя с всичко. Ние подбрахме точните амортизатори на Rock Shox, проектирани да пасват на характеристиката на рамката по начин извличащ максимума от велосипедите ни със задно окачване.*

RECREATION

BY NATURE

ALL ROUNDERS

PREMIUM RECREATIONAL MOUNTAIN BIKES

Our bikes are built to withstand every challenge and serve you loyally, whether it comes to hitting the trails, family riding in the park or going to work. Our HT range goes all the way from 26" to 27,5" and 29" wheels with frame sizes suiting every rider, from teenager to mom and dad. Durable and light alloy frames, reliable suspension, and top quality assembly, the all-rounders of RAM bikes are one of the best price/quality offers on the market.

Велосипедите от тази фамилия са проектирани да бъдат верен партньор, независимо дали става въпрос за каране в планината, семейна разходка в парка или придвижване до работа. Гамата ни от велосипеди с твърди рамки обхваща всички основни стандарти колела (26", 27,5" и 29"), като същевременно предлагаме размери на рамките, подходящи за широк ръстов диапазон. Издръжливи и леки алуминиеви рамки, надеждни амортизьори и окомплектовка, универсалните планински велосипеди на Ram Bikes са сред най-добрите предложения в своя ценови клас.
